Self-Certification Program Program Overview

The Self-Certification Program allows a registered professional to bypass the normal plan review process and obtain permits in 5 business days. Participating professionals must meet minimum qualifications and hold a City of Phoenix Certification.

Professional Qualifications

- Architect or structural engineer registered in Arizona for at least three years to certify building plans
- Successful completion of self-certification training from the City of Phoenix Planning and Development Department

Submittal Requirements

- Building projects must obtain all planning and zoning, and civil construction approvals as necessary prior to application acceptance
- A Structural Peer Review Certificate by a City of Phoenix approved Structural Peer Reviewer is required for projects with structural components
- Fire protection plans and permits cannot be self-certified
- All plan sheets must be sealed by a professional registered in the State of Arizona
- Additional program requirements include the following:
 - Hold-harmless letter signed by the property owner
 - Property owner/applicant certification statement
 - A copy of the Self-Certified Professional's Certificate of Insurance
 - Professional of Record Statement signed by all registrants
 - Fire Prevention Inspection Results (TI's only)
 - Fire Protection Acknowledgement Form
 - Sewer Declaration
- Current forms and checklists are on-line at www.surpriseaz.gov

Eligibility

Eligible projects include:

- Interior alterations and tenant build-outs of business, mercantile, factory, assembly, and storage
- New construction of residential or commercial buildings up to 4 stories

Projects not eligible:

- New high-rise buildings
- Projects located in Floodplain Hazard Areas
- Hazardous Occupancies
- Extra large assembly occupancies (A4 and A5)
- Any project where construction has taken place without benefit of a permit

Self-Certification Program Intake Process and Permit Issuance

Prior to Scheduling Self-Certification Concept Review Meeting

Self-Certified Professional:

1. Ensures required design approvals are obtained (Final Plat, Site Plan, Conditional Use, etc.)
2. Verifies civil construction permits have been issued (Grading, Concrete, Paving, and SWPPP)
3. Completes permit application and submittal checklist
4. Obtains permit and development impact fee quote
5. Has fire flow test conducted
6. Requests Fire Prevention Site Review and received written results (TI's Only)
7. Has annual/one time bond exemption certificate from Arizona Department of Revenue (Projects over \$50,000)
8. Each page of the construction plans contain the following statements:

Self-Certified By: _____ *Date* _____
(Insert name of Self-Certified Professional)

- *Plans were prepared by or under the direct supervision of, or reviewed by the Self-Certified Professional;*
- *Plans are complete;*
- *Plans are, as of the date of submittal, in accordance with the requirements of the Surprise Municipal Code and all other applicable laws.*

Scheduling Self-Certification Concept Review Meeting

Self-Certified Professional:

1. Visit the Information Center located on the first floor of Surprise City Hall and sign in requesting the next available Development Services staff member.
2. Provide all required documentation reflected on the Self-Certification Building Plan Submittal Checklist. Concept Review Meetings are held every Wednesday Morning. All required items must be received by 4:00 pm Tuesday for a concept meeting the following Wednesday.
3. Pay required submittal fees.

Self-Certification Program Intake Process and Permit Issuance Cont.

Concept Review Meeting

Meetings are held Wednesdays in the Development Center Conference Rooms located on the first floor of Surprise City Hall between the hours of 8:00 a.m. and 12:00 p.m.

Self-Certified Professional must attend the concept review meeting. If you are unable to attend the meeting, you must notify Development Services for rescheduling.

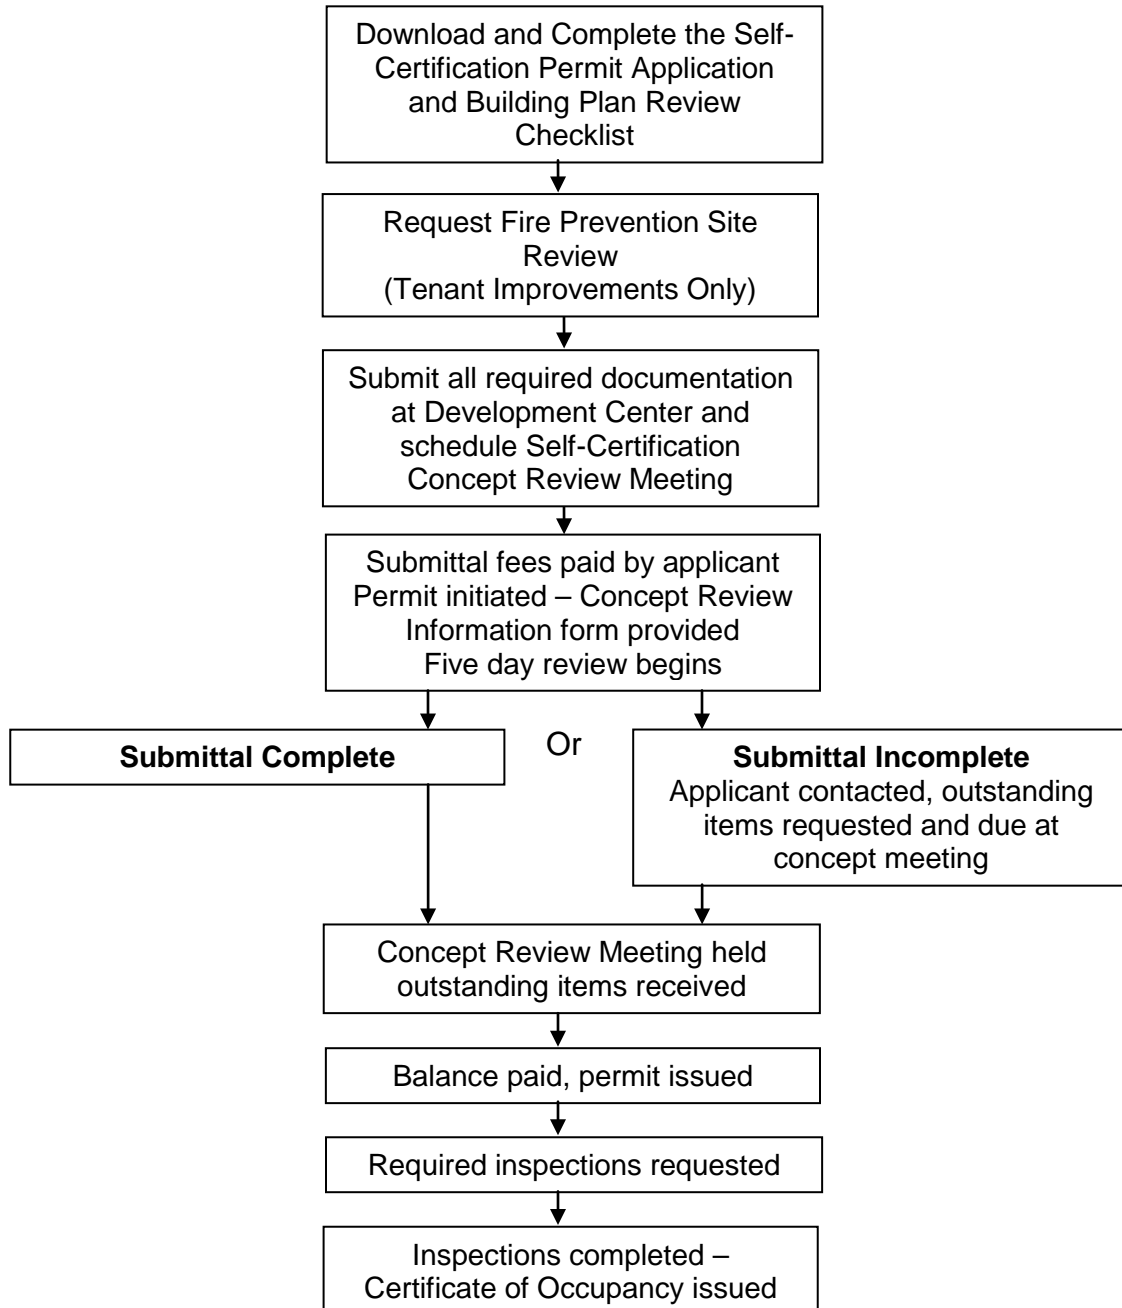

All eligibility requirements and submittal documents are reviewed for compliance by necessary city staff prior to the meeting. In the event there are outstanding items required, you will be notified in advance, and the item(s) will be required at the meeting. If all requested items are not received, the permit will not be issued.

If the submittal remains incomplete for a period of 10 calendar days or more without being rescheduled, or has obvious life safety building code concerns, the permit will be denied. The Self-Certified Professional must remedy the concerns and restart the process.

Once staff verifies all requested submittal documents and plans are received and in compliance with the Self-Certification Program, the Self-Certified Professional will be directed to the cashier to pay the remaining balance of permit and Development Impact Fees.

After proof of payment has been received, the issued permit and approved field plans will be provided.

Self-Certification Program Building Plan Submittal Checklist

This checklist outlines the required documentation and information that must accompany all Self-Certification projects.

The following items must be completed prior to requesting a Self-Certification Concept Intake Meeting:

- √ Approved Design Review (Final Plat, Site Plan, Conditional Use, etc.)
- √ Civil Construction Permits Issued (Grading, Concrete, Paving, SWPPP)
- √ Fire Flow Test
- √ Fire Prevention Site Review Inspection (TI's Only)
- √ Building Permit Fee Quote (Including landscaping when applicable)
- √ Arizona Department of Revenue Annual/One Time Bond Exemption Certificate (Projects over \$50,000)

A copy of the completed checklist must be provided with the items listed below in order to schedule a Self-Certification Concept Intake Meeting:

- Self-Certification Permit Application*
- Owner/Applicant Certification Statement*
- Professional of Record Statement*
- Hold Harmless Letter*
- Copy of Professional of Record Liability Insurance Certificate*
- Two Sets of Construction Plans Including Self-Certification Signature on each Sheet*
- Fire Protection Acknowledgement*
- Results of Fire Prevention Site Review Inspection (TI's only)
- Lease Agreement/Proof of Ownership
- Structural Peer Review Certificate by City of Phoenix Approved Structural Peer Reviewer (When project includes structural components)
- Sewer Declaration
- Structural Engineering Calculations
- Geotechnical Report
- Water Meter Application (Surprise water service area only, when applicable)

Self-Certification Program
Fire Prevention Site Review Inspection Results

Project Address: _____

Fire Prevention staff has conducted a site inspection at the location reflected above. Based on the information and/or documentation presented, the results are as follows:

- A separate Fire Protection Permit, issued by Development Services, is not required.
A separate Fire Protection Permit for the items listed below, issued by Development Services, is required and must be issued prior to an above grid ceiling (660), top out (522C), or walls (650C) inspection on any Self-Certified Building Permit.

Ansul System Yes No
Fire Alarm Yes No
Fire Sprinkler Yes No

I _____, as a duly Arizona Licensed Design Professional, hereby certify that the information/documentation provided to Fire Prevention Staff was consistent with the project proposed at the address reflected above.

I understand that in the event a determination is made that information or documentation could have been provided that would have impacted the decision made by Fire Prevention staff above, it could cause delays including denial of the self-certified building permit.

Self-Certification Program
Fire Protection Acknowledgement

Professional of Record Name: _____ City of Phoenix Registration Number: _____
Project Address: _____

I hereby certify I have read and understand the Fire Protection portion of the Self-Certification Rules and Regulations which indicate the following:

- Fire protection is not included in Self-Certification provided by the City of Phoenix.
• A separate Fire Protection Permit approved by the Fire Prevention Division, issued by Development Services, is required on all new commercial and some new residential construction.
• A separate Fire Protection Permit is required for any modifications to Fire Systems, Access, Special Hazards, or Life Safety systems most of the time.
• Although a building permit may be issued by Community Development, I am unable to request a building permit inspection beyond an Above Grid Ceiling (660), Wall (650C), or Top Out (522C), without first having a Fire Protection permit approved by the Fire Prevention Division, issued by Development Services.
• Fire Prevention staff has conducted a site review (tenant improvements only) and the results will be provided to the Development Services Division.

I recognize that if construction has taken place that is contrary to, or does not meet the standard of the Surprise Municipal Code, or the permit issued pursuant to this acknowledgement, I agree to immediately take all remedial measures within my control, to meet their requirements.

I realize that any corrective action required will delay my project schedule.

It is further understood and agreed that failure to take any such corrective action may result in termination of my participation in the City of Surprise Self-Certification Program, with notification to the City of Phoenix, and the Arizona Board of Technical Registration.

Re: *Project Name*
Project Address
Property Owner Name

Dear Building Official:

In consideration of the issuance of a construction permit under the Self-Certification Program for the project address identified above, I, (*insert owner's name*), hereby agree to protect, defend, indemnify, and hold the City of Surprise, and their officers, representatives, managers, and employees harmless against any and all claims, demands, awards, suits, judgment, liabilities, losses or damages arising out of, or being in any way connected with the design, construction and/or code compliance review for the above referenced project.

The obligation should not be construed to negate, waive or otherwise reduce any other right or obligation of indemnity that may exist in the favor of the City of Surprise.

It is further understood and agreed that if the construction of the project is contrary to, or does not meet the standard of the Surprise Municipal Code, or the permit to be issued pursuant to this letter, I, as the owner shall, at my own expense, remove or modify any and all components that do not conform.

Sincerely,

Property Owner Signature

Special Inspection and Testing Agreement Instructions

Applicants for building permits requiring special inspection per Chapter 17 of the 2012 International Building Code (IBC) must complete the attached agreement form and certificate prior to the issuance of building permits.

- The project owner, architect or engineer of record, contractor and special inspector or firm must sign and date the agreement where indicated. Designated special inspectors shall provide evidence of qualifications and should carry approved identification at all times when performing special inspections.
- The owner, architect or engineer of record, acting as the owners' agent, shall complete the Special Inspection Certificate form including the required seals and signatures.

Approval of Special Inspections: Each special inspector shall be approved by the Building Safety Division prior to performing any duties. Each special inspector shall submit his/her qualifications to the Building Safety Division and is subject to a personal interview for pre-qualification. Special inspectors shall possess approved identification when performing the function of a special inspector.

Special inspection and testing shall meet the minimum requirements of the 2012 IBC, Chapter 17. The following conditions are also applicable:

A. Special Inspector Responsibilities

1. Observe Work

The special inspector shall observe the work for conformance with the Building Safety Division approved design drawings and specifications and applicable workmanship provisions of the IBC. Architect/Engineer reviewed shop drawings and/or placement drawings may be used only as an aid to be inspected. Special inspections are to be performed on a continuous basis, meaning that the special inspector is on site in the general area at all times observing the work requiring special inspection. Periodic inspections must have prior approval by the Building Safety Division based on a separate written plan reviewed and approved by the Building Safety Division and the Architect or Engineer of Record.

2. Report Nonconforming Items

The special inspector shall bring nonconforming items to the immediate attention of the contractor and note all such items in a daily report. If any item is not resolved in a timely manner or is about to be incorporated in the work, the special inspector shall immediately notify the Building Safety Division by telephone or in person, notify the Architect or Engineer of Record and post a discrepancy notice.

3. Furnish Daily Reports

All special inspectors shall complete and sign both the special inspection record and the daily inspections report form. The records and reports are to remain at the jobsite with the contractor for review by the Building Safety Division's inspector.

4. Furnish Weekly Reports

The special inspector or inspection agency shall furnish weekly reports of tests and inspections directly to the Building Safety Division, Architect or Engineer of Record, and others as designated. The weekly reports must include the following:

- Description of daily inspections and tests made with applicable locations;
- Listing of all nonconforming items and report on how nonconforming items were resolved or unresolved as applicable;
- Itemized changes authorized by the Architect or Engineer of Record and the Building Safety Division, if not included in nonconformance items.

Proposed changes to the approved plans must be submitted to the Building Safety Division before the work can be covered and must bear an original seal/signature of the Architect or Engineer of Record.

5. Furnish Final Report

The special inspector or inspection agency shall submit a final signed report to the Building Safety Division and the Architect or Engineer of Record noting that all items requiring special inspection and testing were fulfilled, reported, and to the best of his/her knowledge in conformance with the approved design drawings, specifications, change orders, and the applicable workmanship provisions of the IBC. Items not in conformance, unresolved items or any discrepancies in inspection coverage (i.e., missed inspections, periodic inspections when continuous was required, etc.) shall be specifically itemized in this report.

B. Contractor Responsibilities

1. Notify the Special Inspector

The contractor is responsible for notifying the special inspector or agency regarding individual inspections for items listed on the attached schedule and as noted on the Building Safety Division approved plan. Adequate notice shall be provided so that the special inspector has time to become familiar with the project.

2. Provide Access to Approved Plans

The contractor is responsible for providing the special inspector access to approved plans at the jobsite.

3. Retain Special Inspection Records

The contractor is responsible for retaining all special inspection records submitted by the special inspector at the jobsite and providing these records for review to the Building Safety inspector upon request.

C. Building Safety Division Responsibilities

1. Approve Special Inspection

The Building Safety Division shall approve all special inspectors and special inspection requirements.

2. Monitor Special Inspection

Work requiring special inspection and the performance of special inspectors shall be monitored by the Building Safety inspector. His/her approval must be obtained prior to placement of concrete or other similar activities in addition to that of the special inspector.

3. Issue Certificate of Occupancy

The Building Safety Division may issue a Certificate of Occupancy only after all special inspection reports and the final report have been submitted and accepted.

Arizona Department of Revenue Bonding Requirements

The following are guidelines for compliance with **ARS § 42-5007**. This law requires that all building authorities obtain a certificate from the Arizona Department of Revenue to ensure the bonding requirement has been met prior to the issuance of any building permit for projects of \$50,000 or more in value. All qualified contractors should receive their certificate by July 31st, the expiration date of the last certificates.

There are three types of certificates issued by the Arizona Department of Revenue that allow qualified contractors to demonstrate compliance with the bond requirement:

- Annual Bond Exemption Certificate
- One-time Bond Exemption Certificate
- Bond Receipt (the actual project bond)

Provide a copy of the Annual Bond Exemption Certificate or Bond Receipt with the building permit application. The Arizona Department of Revenue will fax the One-Time Bond Exemption Certificate directly to the City of Surprise.

The One-time Bond Exemption Certificate and the Bond Receipt must specify the location of the project site.

Contractors are required to provide a certificate from the Arizona Department of Revenue for project valuations of \$50,000 or more in value.

Please direct any questions regarding the certificates or requirements to the Arizona Department of Revenue, Bond Compliance Officer at (602) 716-6056.
