## **BUILDING PERMIT AND INSPECTION FEES**

Building permit fees are based on project valuation established pursuant to the most current table published by the International Code Council (ICC)\*, or actual construction cost as outlined in a cost estimate provided by the applicant.

The building permit fee is due upon issuance of the permit, and includes all necessary inspections for completion of the work proposed. In the case of a commercial building permit, the fee also includes the issuance of a Certificate of Completion, Certificate of Occupancy, or Conditional Certificate of Occupancy.

The building permit fee category is used for all residential and commercial building permits including but not limited to single family residences, commercial buildings, tenant improvements, swimming pools, alterations, additions, mechanical, plumbing, electrical, landscaping, etc.

After Hour Inspection	\$100/hour (\$200 min)

## **DEVELOPMENT IMPACT FEES**

Grandfathered Facilities are Capital Facilities included in an Infrastructure Improvement Plan or other City planning document, and Impact Fee Study prepared pursuant to applicable law prior to June 1, 2011, and constructed through Financing or Debt for which development impact fees were pledged for repayment prior to June 1, 2011. These previously established development impact fees will continue to be assessed and collected until the associated finance and debt is repaid.

The New Development Impact Study establishes the new development impact fees pursuant to ARS § 9-463.05.

Therefore, both Grandfathered and New Impact Fees are assessed and due at the time of building permit issuance for each category listed below.
