

Meet the STRC Player of the month for MAY 2010!

Why did you start playing tennis?

Too short for volleyball.

How long have you been playing tennis?

I've been playing since high school, so I suppose that's around 40 plus years. I grew up playing high school tennis in the San Fernando Valley in Southern California. In fact, two players from my high school, one from the boys team and one from the girls team, both went on to play collegiately and even played professionally for a while.

You've volunteered for just about everything haven't you?

I guess so. The CTCA, Fed Cup, the Super Seniors, Quickstart, Junior Team Tennis and one of my favorites is the Women's Pro Circuit Event where I organize the housing for the players. Those girls are so much fun. I just love this facility. We all just love it so much.

Who is your favorite player?

I would have to say Justine Henin. Probably because we're about the same height! In fact, I used the same racquet as her one year. Unfortunately, I didn't have the same results.

Ellen Bowers
